Inviting Quotations for Purchase of Tegaderm for Department of CTVS, AIIMS Raipur.

QUOTATION NOTICE

Sealed quotations are invited from intending registered Stockist / Distributors having GST and relevant documents for Purchase of Tegaderm for Department of CTVS, AIIMS Raipur. The quotation with copy of certificate of GST & other documents should be submitted to office of **Store Officer Room No. – 51, 2nd floor AYUSH Building, Gate No. 1 up to 24/09/19 before 3:00 pm**. The quotations will be opened on the same day at 3:30pm. Details of item are given as under:-

S. No.	Item description	Qty. required	Unit	HSN Code	Brand	Unit Rate	GST Applicable			Amount
	<p>Specification for Tegaderm Transparent CHG dressings advance current I.V. site protection by integrating the antimicrobial power of CHG with the transparency, reliability and simplicity of a dressings. This integrated, one-step CHG transparent dressing helps to improve compliance to facility protocol. The intuitive design is clinician-friendly and the ease of application minimizes opportunity for error. CHG antimicrobial wound dressing cannot be applied incorrectly or forgotten. Complies with ICNA guidelines for IV dressings.</p> <ol style="list-style-type: none">1. Single, Sterile, Transparent, Semi-permeable thin conformable polyurethane film (latex free), Dressing size : 8.5cm × 11.5cm. Gel pad size : 3cm × 4cm.2. It is water, virus and bacteria proof.3. It is coated with water repellent hypo-allergic pressure sensitive acrylate adhesive with unique paper window frame delivery design.4. It has a slit to conform around the CVC Hub.	10 Box (25 Pc/Box)	Nos.							

<p>5. It should have CHG gel pad-able transparent film (contains 45 mg CHG).</p> <p>6. Waterproof, sterile barrier to organisms, including those most commonly associated with CRBSIs.</p> <p>7. Allows continuous site observation.</p> <p>8. Semi-permeable, highly breathable for moisture evaporation and improved securement.</p> <p>9. Conforms to body contours, flexes with patient movement and supports varied insertion practices.</p> <p>10. Waterproof dressings provides a breathable bacterial and viral barrier (in vitro testing has proven dressings provide a viral barrier from viruses 27nm in diameter, (e.g. HCV) or large (e.g. HBV and HIV0)while the dressing remains intact without leakage to outside contaminants and allows the patient to shower, maintains low bacterial and viral colonization.</p> <p>11. Product should be BIS/USFDA and CE certified.</p> <p>12. Design prevents tenting of dressing and stick to itself wastage.</p> <p>13. This product and package should not contain natural rubber latex.</p> <p>14. It should be deliver broad spectrum antimicrobial protection against the microorganisms most commonly associated with causing CRBSI ¹.</p> <p>CHG Gel pad</p> <p>1. Adhesive free zone over the tegaderm CHG gel pad for maximum breathability.</p> <p>2. It should have composition of water, polymers and 2% chlohexidine gluconate.</p> <p>3. Wound dressings CHG is</p>
