Dr. D. K. Sharma
HOD, Anatomy

Burial and Cremation

A Spiritual Perspective

Anatomy Act in India: the anatomy act came into enactment in the year 1949 which has been adopted by all the states. It provides for the collection of dead bodies for teaching purpose, only if death occurs in a state hospital or in a public place within the prescribed zone of medical institutions, provided the police have declared a lapse of 48 hours that there are no claimants for the body and it could be used for the medical purpose.

Shri Shankaracharya believed in Body Donation

**Donating
your
eyes
after
death,
then why
not
whole
body?**

The Bhatias total eight members of a family, all senior citizens are honoured after pledging to donate their bodies for medical education and research at Government Medical College and Hospital Chandigarh.

Famous film Actor Parthiban Appreciated Mr. S. Ashok Kumar, for creating awareness in voluntary body donation on January 9, 2011. Smt. Saraswathi from Guduvancherry is 175th person in the voluntary body donor's list of Mr. S. Ashok Kumar and Chitra Ashok Kumar residents of west Mambalam. With it they have enrolled 175 persons for whole body donation after their demises in Anatomy Department, Government Hospital in last 2 years. They both are 1st and 2nd receivers of Identity card respectively.

Some leaders donated their body for medical research like communist leader **Jyoti Basu** and Jana Sangh leader **Nanaji Deshmukh**. Communist leader Jyoti Basu's body was donated to medical science, then trickle has turned into something of a tidal wave. Thousands of people have already collected forms to pledge and come front for body donation.

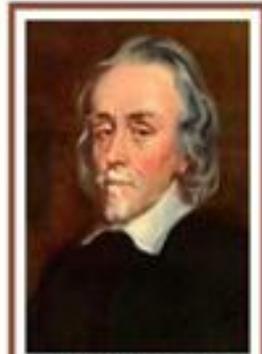

World Record of Largest body donation registration in twelve hours has been achieved by Shree Laxminarayan Dev Yuvak Mandal Vadtal at International Shree Swaminarayan Mahamantra Mahotsav at Junagadh, Gujarat.

and friends

Body donation programme in Ohio State University USA

Pledging for body donation by famous film actor Amir Khan

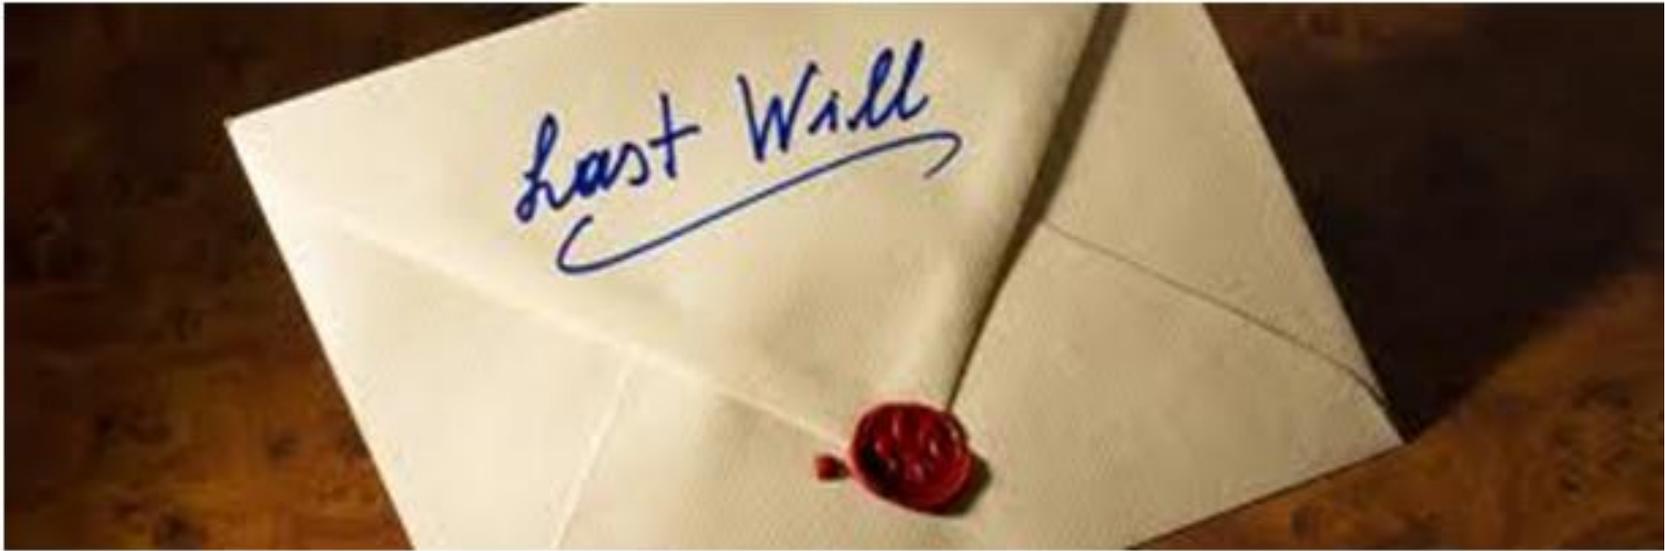

**Whole
Body
Donation
Improves
the Quality
of Life**

Planning ahead? Consider body donation.

Make a gift that is both free and priceless.

Appeal by the Department of Anatomy All India Institute of Medical Sciences (AIIMS) Raipur CG India:

- *Cadaveric dissection is the integral part of the anatomy curriculum of Medical Science and there is a strong need to popularize the message to common masses to donate their bodies after death for the teaching and research purposes.**
- *A person in his life can express his will for body donation in writing (Will form can be obtained from the Department of Anatomy) and can convince his next kith and kin about his / her pledging. The donor will be provided a 'Certificate of Honour' by the Institute.**
- *The dead body along with the death certificate should be transported within 6 hrs to the Department of Anatomy AIIMS Raipur. In case of delay in transporting, the body should be kept in mortuary or on ice slabs and if needed the Department of Anatomy AIIMS Raipur can provide a vehicle to transport the body within the Chhattisgarh state.**
- *Help Line Phone Numbers: Nodal Officer AIIMS Raipur: 9098762320**

Thanks,

Dr. D. K. Sharma
