## Corrigendum/ Addendum

**Name of Work:** Design, supply, fabrication, fixing, testing and commissioning of Acrylic LED signage with ACP background in Hospital area at AIIMS Raipur.

NIT No. : 27/EE/AIIMS/RPR/2020-21 Dated 02/07/2020

Changes to be considered in the above referred Notice Inviting Tender

SN.	Clause/ Page/ Point	Existing	To be read as
1.	Eligibility Criteria/ Page no. 11	Similar work means "Providing and fixing of LED Signage"	Similar work means "Providing and fixing of Signage"
2.	Special condition of Contract (S. no. 1.20, Page no. 45)	The contractor has to provide a comprehensive unconditional maintenance for the complete signage for a period of 1 year of warranty and another 2 years of CAMC from the date of completion or satisfactory certificate issued from Engineer-in-charge. In this regard the rates quoted by the Contractor are deemed to be inclusive. No other payment will be made for Maintenance period of 1+2 year.	The contractor has to provide a comprehensive unconditional maintenance for the complete signage for a period of <b>1 year of warranty and another 4 years of CAMC</b> from the date of completion or satisfactory certificate issued from Engineer-in-charge. In this regard the rates quoted by the Contractor are deemed to be inclusive. No other payment will be made for Maintenance period of 1+4 year.  Note: All the conditions as mentioned in tender document related to Maintenance shall be modified accordingly and shall be applicable for a period of total <b>5 year</b> of maintenance.
3.	Technical Specification (S. no. 6, Page- 34)	All the Power units/Driver should be designed for 200% of the actual load of the system.	All the Power units/ Driver should be designed for <b>150%</b> of the actual load of the system.
4.	Item Rate BoQ/ Price schedule  (Item no. -1)	Design, supply, fabrication, fixing, testing and commissioning of LED Signage board using letters made up of 3mm acrylic sheet at Front, backing with 3 mm thick ACP sheet and side framing with 1.2 mm thick 316 grade Stainless steel with CNC/laser cutting and Machine bending (as per letter size), includes LED for illumination, Driver for power supply and timer for on/off at preset time complete in all respect as per the Technical specification and approved design. (At all height)	Design, supply, fabrication, fixing, testing and commissioning of LED Signage board using letters made up of 5 mm thick acrylic sheet (or better) at Front, backing with 1.6 mm thick (or better) 316 grade Stainless steel and side framing with 1.2 mm thick (or better) 316 grade Stainless steel with CNC/laser cutting and Machine bending (as per letter size), includes LED for illumination, Driver for power supply and timer for on/off at preset time complete in all respect as per the Technical specification and approved design. (At all height).

5.	Item Rate BoQ/ Price schedule  (Item no. -2)	Design, supply, fabrication, fixing, testing and commissioning of AIIMS Raipur Logo with LED board made up of 5mm Acrylic sheet with latex print vinyl at Front, backing with 3 mm thick ACP sheet and side framing with 1.2 mm thick 316 grade Stainless steel with CNC/ laser cutting and Machine bending (as per letter size), includes LED for illumination, Driver for power supply and timer for on/off at preset time complete in all respect as per the Technical specification and approved design. (At all height)	Design, supply, fabrication, fixing, testing and commissioning of AIIMS Raipur Logo with LED board made up of 5 mm thick Acrylic sheet (or better) with latex print vinyl at Front, backing with 1.6 mm thick (or better) 316 grade Stainless steel and side framing with 1.2 mm thick (or better) 316 grade Stainless steel with CNC/ laser cutting and Machine bending (as per letter size), includes LED for illumination, Driver for power supply and timer for on/off at preset time complete in all respect as per the Technical specification and approved design. (At all height).
6.	Item Rate BoQ/ Price schedule  (Item no. -3)	Supply, fabrication and fixing of Aluminium Composite panel made up with 3 mm thick ACP sheet supported with aluminium pipes & angles fixed with aluminium cleat screws, fastener etc. as required complete in all respect as per the Technical specification and approved design. (At all height)	Supply, fabrication and fixing of Aluminium Composite panel made up with 4 mm thick ACP sheet having 0.5mm foil thickness (or better) supported with aluminium pipes & angles fixed with aluminium cleat screws, fastener etc. as required complete in all respect as per the Technical specification and approved design. (At all height).
7.	Notice inviting e- tender ( Page no. 6)	Last Date of submission: 22/07/2020 Date of Opening: 24/07/2020	Last Date of submission: <b>15/08/2020</b> Date of Opening: <b>17/08/2020</b>
8	List of Mandatory Documents to be filled (S. no. 11, Page no. 13)	Experience certificate duly issued by the Government/ Semi Government/ PSU"s/ Any autonomous body not below the rank of Executive Engineer in similar nature of work( refer page no-11)	Experience certificate duly issued by the Government/ Semi Government/ PSU"s/ Any autonomous body/ Reputed Private organization not below the rank of Executive Engineer/Tender Inviting Authority in similar nature of work (refer page no-11)  Note: Experience of Private organization will be considered only on submission of relevant experience certificate along with work order and TDS deduction certificate for that work period.
9.	General Technical Specification/ Point no. 1 (Page- 35)	LED Signage shall comprise of a Letter preferably made of 3mm acrylic sheet at Front, backing with 3 mm thick Aluminium composite Panel (ACP) and side framing with 1.2 mm thick 316 grade Stainless steel with CNC/ Laser Cutting fixed with the help of Screw/ bolts to the MS structure. SMD LED strip/module shall be mounted uniformly on the ACP and Control circuit i.e. Driver and Timer are properly placed in Pole box (junction box) made out of polycarbonate/ compressed moulded fibre glass polyester. Deviations to this arrangement shall be allowed but this needs to be approved by engineer-in-charge.	LED Signage shall comprise of a Letter preferably made of 5 mm thick acrylic sheet (or better) at Front, backing with 1.6 mm thick (or better) 316 grade Stainless steel and side framing with 1.2 mm thick (or better) 316 grade Stainless steel with CNC/ Laser Cutting fixed with the help of Screw/ bolts to the MS structure. SMD LED strip/module shall be mounted uniformly on the backing and Control circuit i.e. Driver and Timer are properly placed in Pole box (junction box) made out of polycarbonate/ compressed moulded fibre glass polyester. Deviations to this arrangement shall be allowed but this needs to be approved by engineer-in-charge.

10.	General Specification/ (Page- 35)	Technical Point no. 3	The Back Side of the Character signage board should be covered with GI Sheets in order to protect it from water ingress and to make it IP 65.	The sign board should be protected from Water ingress, Dust and Insect i.e. should possess a protection level of IP 65.
-----	-----------------------------------	-----------------------	---	---
