

Report on Universal Health Coverage Day'2019 celebration

Universal Health Coverage Day was observed by All India Institute of Medical Sciences Raipur under Kayakalp community based activities on 12/12/2019 on the theme for the UHC Day 2019 campaign."Keep the promise: Uphold the Quality of care". The programme aimed to generate awareness and assuring quality health care for the people in the outreach areas. Universal Health Coverage Day is celebrated annually on December 12 and is promoted by the World Health Organization to provide the citizens affordable, quality health care. As the part of celebrations various activities were planned and successfully conducted at Urban Primary Health Centre, Gudhiyari. The activities were initiated by a rally to sensitize the public on importance of health and universal health coverage. Following a poster exhibition was conducted in a the view to educate the public regarding various health aspects like hand hygiene, self care promotion and health maintenance, newborn care, immunization, and pollution prevention. Health screening for hypertension and malnutrition was done and Health Tattoos were put for the people which depicted health slogans and logos. An in-service education was organized for all the staffs in Urban Primary Health Centre to make them aware about the theme of UHC'2019 and ensure their participation in providing quality care to the clients. Activities succeeded in creating awareness on health promotion among the public and Community Health personnel.
