**Encl:-**

01. Proprietary letter of Vendor.
02. PAC Certificate

**Date: 20<sup>th</sup> March 2018**

**TO WHOM IT MAY CONCERN.**

Integra LifeSciences is the sole manufacturer of the ultrasonic surgical aspirators model CUSA® Excel+. I am writing to inform you that following unique differentiating feature is among the reasons accounting for the CUSA® Excel+ system's global market leadership and are its proprietary technology:-

1. Tissue Select™ is an active patient safety feature which is proprietary to CUSA Excel+. This feature provides the surgeon a tactile feedback when the surgeon encounters vessels, thus allowing the surgeon to safely remove tissue and avoid critical structures, without compromising speed.
2. The CUSA Electrosurgery Module (CEM™) nosecone provides surgeon with a powerful powerful combination of electrosurgery and ultrasonic's in one hand piece, allowing surgeon to control bleeding during tissue removal without having to use a second instrument. The CUSA Excel + is only ultrasonic tissue ablation system to incorporate simultaneously electrosurgical and ultrasonic to the tip of any size (including laparoscopic tip) with press of a button.
3. The Laparoscopic Mode provides no suction to the handpiece until the vibration pedal is activated which helps to maintain the gas during the procedure.
4. No heat buildup on surgeons hand after long hours of surgery and also increase the life of the handpiece due to integrated cooling system.
5. External suction pathway to the handpiece housing enables fast cleaning and eliminating tissue trap.
6. No other ultrasonic surgical aspirator manufacturer utilizes magnetorestrictive transducer technology to power the ultrasonic handpiece.

For more information on these exclusive functionalities, please see the attached official documentation and brochure from the company as well as you may contact the General Manager for Integra.

Yours Faithfully,

**For Integra Lifesciences Corporation**
