Date: 02/04/2020

**NOC**

**विषय/Sub:** Purchase of “**Supply of Ophthalmic Surgical Microscope**” for Dept. of Ophthalmology at AIIMS, Raipur on Proprietary Basis – Inviting Comments Thereon.

The institute is in the process for purchase of **Supply of Ophthalmic Surgical Microscope**” for Dept. of Ophthalmology at AIIMS, Raipur from **M/s Carl Zeiss Meditec AG, Germany** on proprietary basis. The Local agent for above item is **M/s Carl Zeiss India Pvt.Ltd., Bangalore**. The Proposal submitted by department of Ophthalmology at AIIMS, Raipur and PAC Certificate is attached which is to upload on website.

The above documents are being uploaded for open information to submit objection/comments, if any from any manufacture regarding proprietary nature of the reference No. AIIMS/R/CS/OPHTH/39552/20/PAC. The comment should be sent to Store Office, AIIMS, Raipur on upto or before **13.04.2020 upto 3:00 pm**. Failing which it will be presumed that any other vendor having no comments to offer and case will be decided on merits.

### PROPRIETARY CERTIFICATE FOR ZEISS OPMI LUMERA 700 SURGICAL MICROSCOPE FOR OPHTHALMIC SURGERY

We, Carl Zeiss Meditec AG, hereby certify that ZEISS OPMI LUMERA 700 Surgical Microscope for Ophthalmic Surgery is manufactured by Carl Zeiss Meditec AG, D-73447 Oberkochen, Germany.

The OPMI LUMERA 700 offers the following unique features and benefits which are not available with surgical microscopes manufactured by any other companies:

- Stereo Coaxial Illumination (SCI) for constant brilliance and brightness-every detail of the patient's eye becomes visible. Combined with the completely apochromatically corrected optics with high light transmission, the system provides unprecedented and thus optimal imaging quality for ophthalmic surgery and documentation with minimal patient stress.
- DeepView enabling the surgeon to select an optimized depth of field mode on the microscope
- Superlux® Eye xenon light source offering a whiter, higher contrast and more natural color impression of the surgical field and HaMode filter for halogen-like light. The Superlux Eye xenon light source is equipped with a quick-change mechanism for changing the bulb in the event of failure, while with its automatic bulb change, the halogen light source moves the backup lamp automatically into position. If the motorized functions fail, the surgical procedures can be completed by using special buttons or via the manual mode of the system.

19 SEP 2019

- Motorized illumination components for red reflex and surrounding field of SCI, adjustable via foot control panel or handgrips.
- The integrated keratoscope option enabling visualization of corneal astigmatism
- Fully integrated 3 CCD MediLive Trio Eye video camera specially designed for the requirements of ophthalmic surgery, available in Standard Definition (SD) or High Definition (HD) versions. If 4K is desired, the system can be upgraded to a digital microscope – see specifications for ARTEVO 800.
- Integrated HD video chain comprising of a camera monitor and video recording via USB
- Integrated assistant's microscope with independent focusing and its own motorized zoom. The magnification can be performed independently of or linked to the zoom of the main surgeon (freely configurable via software). The stereopsis corresponds to that of the main surgeon's microscope and functions without light loss for the main surgeon, with deselect able function or optional mechanical
- Motorized, seamless optical zoom.
- Motorized, swing-in retinal protection device activated by foot control panel or handgrips reduces the risk of phototoxic injury.
- The integrated beam splitter guaranteeing a constant working height, also when additional accessories are attached. e.g. stereo coobservation tube.
- Large fine focusing range of 70 mm
- keratoscope, slit illuminator and USB video recording are integrated into the system.
- Integration-perfect integration of RESIGHT fundus viewing system, Invertertube E and integrated video camera. The integration of these accessories and the associated partial automation of the required settings on the microscope facilitate the workflow in the OR considerably.
- Wireless 14-function foot control panel with freely configurable keys (optionally with cable available)

Optimized workflow and maximum ease of use-thanks to the wireless foot control panel and the assistance functions of CALLISTO eye (option) such as Z ALIGN for toric 10Ls, K TRACK, Incisions/LRI and microscope settings directly in the eyes with IDIS.

Simple to operate-reading of microscope settings or overhead display and fast focusing for switching readily between two different planes.
