Subject: Regarding replacement of existing Gram negative AST cards to New Refresh Cards.

bioMérieux is dedicated to ongoing improvements in our product portfolio to enable us to provide the best solution for your laboratory. Soon we will be streamlining our current VITEK® 2 Gram negative susceptibility card references to enable development of new and updated panels over the next few years.

Our existing Gram-Negative AST card references: AST-N280, AST-N281 will be discontinued, along with AST-N363 and AST-N364. Our records indicate the current VITEK 2 AST (antimicrobial susceptibility testing) panel you are using will be one of the discontinued panels.

Prices for new Vitek refresh cards (AST-N405 and AST-N 406) which replace the existing range of GN AST vitek cards will be same as per the existing cards.

The main reasons for the discontinuation are:

- Availability of new drug formulations
- Addition of new antibiotics
- Extended MIC calling ranges
- Panels which empower the clinicians to positively impact patient care

We are pleased to announce the launch of three new VITEK® 2 Gram-negative antibiotic susceptibility test (AST) cards.

New VITEK 2 Gram-Negative AST Panels.

☐ AST-N405 (ref. 423864)- HSN 38220019,

☐ AST-N406 (ref. 423869)- HSN 38220019.

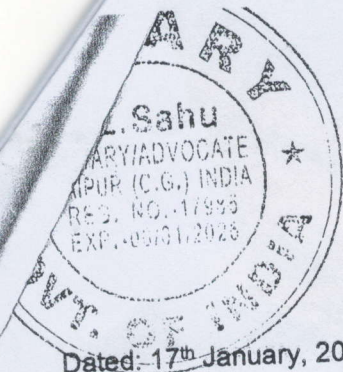

I Would request to add above mentioned product in RC to replace existing gram negative AST cards AST N-280 and AST N-281 with new AST N-405 and AST N-406.

Thanks and Regards,
