Propriety Article Certificate for O2FLO

The Chamber and Circuits for the O2FLO are dedicated consumables and only consumables manufactured by Vincent Medical should be used with O2FLO for the following reasons:

1. The O2FLO is a dedicated stand alone machine and only using the Dedicated Chambers and Circuits can we guarantee the performance to the patient
2. Performance means safety first – our chamber is a patented chamber which feedbacks to the O2FLO is the water level is too low or above the maximum water level. When this does happen the machine will alarm and notify the end user
3. Safety on the circuits as we have dedicated Adult and Pediatric circuits. O2FLO will detect immediately which circuit you have connected to the machine. If you select the wrong patient setting on the selected circuit, it will alarm. If the circuit is not functioning property it will also alarm
4. More safety on circuits and patients - if the circuit selected is pediatric and the setting is selected is also pediatric, the machine will only allow the correct temperature and flow rate setting. I will not allow a setting beyond the recommended settings ie adult settings.

We trust this answers why we have dedicated chambers and circuits, our priority is patient first with all our decisions.

Yours sincerely  
For and on behalf of  
Vincent Healthcare Products Limited
