Minutes of Meeting of Biomedical waste Management Committee

The meeting of Biomedical waste Management committee, AIIMS Raipur was held at the office of the Medical Superintendent AIIMS, Raipur on 21/12/2017 under the Chairmanship of Dr. A.K. Dani, Medical Superintendent and Chairman, Biomedical waste Management committee, AIIMS, Raipur. The minutes of meeting are as follows-

(01) Barcoding for BMW:-

- Suggestion were invited from committee members regarding implementation of separate software as currently there is no provision of hospital information system. All the committee members were requested to look for a separate software exclusively applicable for biomedical waste management. Medical Superintendent will also pursue it.

(02) Weighing Machine –

-Currently weighing Machine designated for biomedical waste disposal is out of order. So two weighing machines one digital and one manual were suggested for purchase.

(03) Signages:-

-Signages related to biomedical waste will be prepared in various sizes by the committee and hard copies are to be submitted to the office of the Medical Superintendent in PPRF.

(04) Mercury spill management kit:-

-The requirement of mercury spill management kit should be ascertained depending on the use of mercury containing instruments in the wards and laboratories. The required amount are to be prepared by BMW team & distributed to all wards.

(05) As there is no provision for pretreatment of liquid biomedical waste, automated liquid treatment system to be purchased for major areas like 4 labs, OTs & Minor OT (total = 07).

(06) Storage area

-The building allotted for biomedical waste is not available to fulfil the purpose as of now. But Medical superintendent assured that the existing area will be used as intended in future. So there is no need to look for a new temporary storage area and for the time being biomedical waste should be stored in one part of that building.

(07) ETP/STP:-

- No requirements/specifications would be given by BMW management committee.
- Effluent water may be tested in Microbiology lab.

(08) Bins:-

-Duly filled PPRFs have been submitted at Medical Superintendent's office for 50l and 10l biomedical waste bins. Foot operated bins for wet/dry general waste to be provided to respective wards/OPD, blue/green to be maintained in public areas & black to be retained in core patients care areas.
