Minutes of meeting Biomedical Waste Management committee, AIIMS, Raipur, 21.12.23

The meeting of biomedical waste management committee AIIMS, Raipur was held at the office of the medical superintendent of AIIMS Raipur on 21/12/2023. The following members were present in this meeting.

1. Dr. Nitin Borkar, Additional Medical superintendent,
2. Dr. Dibakar Sahu, Deputy Medical Superintendent.
3. Dr. Debajyoti Mohanty, Department of General Surgery,
4. Dr. Ujjwala Gaikwad, Infection Control Officer,
5. Dr. Tushar B. Jagzape, Department of Paediatrics,
6. Dr. Harshal Sakle, Associate Professor, Dept of Orthopedic,
7. Mr. Prasanth Kumar Ravi, Executive Engineer, Project Cell,
8. Mr. A. Venkat Ramanna, A.O. (H),
9. Mr. Ajay Singh (Sr. Nursing Officer)
10. Mr. Pushpendra Kumar (Nursing Officer),
11. Dr. Padma Das, Member secretary Bio-Medical Waste Management Committee

The meeting started with the welcome address by the member secretary of the committee.

The minutes of meeting -

- 1- The meeting started with the mentioning of the work done by the committee so far in this year. Among which the major points are training, barcoding, annual report upload in institute website,

submission of monthly report to the ministry, daily area wise audit and monthly circulation of it and renewal of authorization.

2- Induction training on biomedical waste management was arranged for 450 newly joined nursing officers on 8th and 9th December 2023. The training attendance on both the days was around 230. Keeping into view this low attendance, it was decided to arrange another training workshop in the coming months.

3- Certain IEC materials are out of stock like posters on biomedical waste segregation, bio hazard sign, cytotoxic sign and general waste segregation. So the administration was requested to take steps for further printing of these posters which was agreed upon.

4- It has been noted that in many patient-care areas, appropriate dustbins are not available. They are either broken or have a swinging lid which is not recommended in current biomedical waste guidelines and should be replaced with foot-operated closed bins. Additional medical superintendent Dr. Borker commented that the broken bins should be condemned by the concerned departmental condemnation committee and for new purchase the indent should be initiated from the concerned department. The same repeats with the color-coded 4 compartment stainless steel trollies which are required for in-house transportation of segregated biomedical waste.

5- This was mentioned that the only E-Rickshaw available for transport of biomedical waste is under dilapidated condition which is beyond repair. The file for purchase of new e-rickshaw is lying dormant as no GeM items comply to the technical specifications proposed. So this as requested to administration to allow for the local purchase of customized e-rickshaw.

6- The ETP & STP maintenance and supervision is carried out by the project cell through the outsourced agencies but the committee is not being intimated about the performance reports of the same. So, Executive Engineer Project Cell was requested to share the performance reports to the committee regularly.

7- The current temporary biomedical waste storage area has several pitfalls like smaller size, unwanted position, no washing facility and no ETP connection. So, suggestion for a new biomedical waste storage area has been communicated to the MS Office through 2 letters where it has suggested that the junk room situated at the herbal garden could be one of the most suitable area for biomedical waste storage with certain small necessary structural alterations in the existing building. In this context, Dr. Borker advised to have a meeting with Medical Superintendent Madam and Hospital Store

officer later as this building comes under hospital store. He also advised to have an inspection round on the suggested area along with the Executive Engineer Project Cell.

8- The small hindrances about biomedical waste segregation noted during daily audit activities in certain patient-care areas were discussed and it was decided to take certain strict measures if repeated reminders regarding the same don't work by sending the non-compliance report to the Medical Superintendent's office.

9. As noticed, separate biomedical waste segregation for seropositive patients will be discouraged and a relevant advisory will be issued by the committee.

10. This was decided to provide manual glass ampoule breakers in the wards in order to avoid spillage of broken glass pieces.

The meeting ended with concluding remark of Dr. Nitin Borker, Additional Medical Superintendent.
