## Institute & Department

AIIMS, Raipur is established on 20th June 2012 with motto of Aarogyam Sukha Sampada (Health is Wealth and Happiness). It is one of the SIX AIIMS healthcare institutes being established by the Ministry of Health & Family Welfare, Government of India under the Pradhan Mantri Swasthya Suraksha Yojna (PMSSY). The Institute is currently operating as the leading tertiary care centre in the state of Chhattisgarh, parts of eastern Maharashtra (Vidarbha Region), Madhya Pradesh and Odisha.

Department of Psychiatry is in existence since April, 2013. The team consists of psychiatrists, clinical psychologist, child psychologist and psychiatric nursing staff. The department also started PG programme in Psychiatry from July, 2018. The department makes continuous effort to conduct various activities to bring awareness and impart knowledge to patients, parents and professionals.

## About the Topic

Intellectual disability (ID) is a chronic condition and needs long term intervention and involvement of various professional is a rule rather than an exception.

Various professionals involved with these patients have expertise in their own field. However, there is strong need to understand scope and techniques used by different professionals with these patients. It is also important to acknowledge the challenges faced by various professional. There is a need to have dialogue among various professionals to treat the patient as “whole”. This will also lead to better understanding, communication and collaboration among professionals. This will strengthen the utility of existing interventions.

## Topics of Discussion

Eminent Speakers from the fields of Psychiatry, Forensic Medicine, Pediatric, Clinical Psychology, Physiotherapy, Speech & Audiology and Representative of Health & Family Welfare Department will speak on following topics:

- ❖ Role and Challenges of Assessment in Patient with Intellectual Disability (ID)
- ❖ Role, Challenges and Limitations of Speech Therapy in Patient with ID
- ❖ Etiologies and management in Patient with ID
- ❖ Legal aspects of Patient with ID
- ❖ Certification and Schemes of Government for Patient with ID
- ❖ Alternative Mode of Communication in Patient with ID
- ❖ Role and Challenges of Behaviour Modification in Patient with ID
